Thank you Marilyn,

It only feels appropriate to take a few minutes to simply say thank you for the work you do in your community. The service you do there has a local impact that ripples into a national and global impact.

Earlier today I read a news article of a fourteen year old boy in the Detroit area who has been building libraries in homeless shelters - he understands the importance of relationships and information. It's just my guess, but I bet libraries have played an important role in his life.

There was also a recent story about how libraries in the Philadelphia area have been helping patrons get medical information during times of health concerns. What a blessing to those who need this help!

I loved the article about how the library in Yankton, SD is using high school students to teach basic computer skills. This library is not only teaching computer skills, but also helping high school students build their leadership, teaching and training skills. In my opinion, this is a BIG deal!

I guess what I'm trying to say is this - what you are doing has a huge impact in our World and we're most thankful for the role you and your library play on a day-by-day basis. Thank you. We at Rivistas are very thankful for you and all you do.

On behalf of our team,

Bonnie Cribbs & Tony Howell
